SCO One, SCO One Hybrid, SCO with screen, Minihybrid, Easy Express

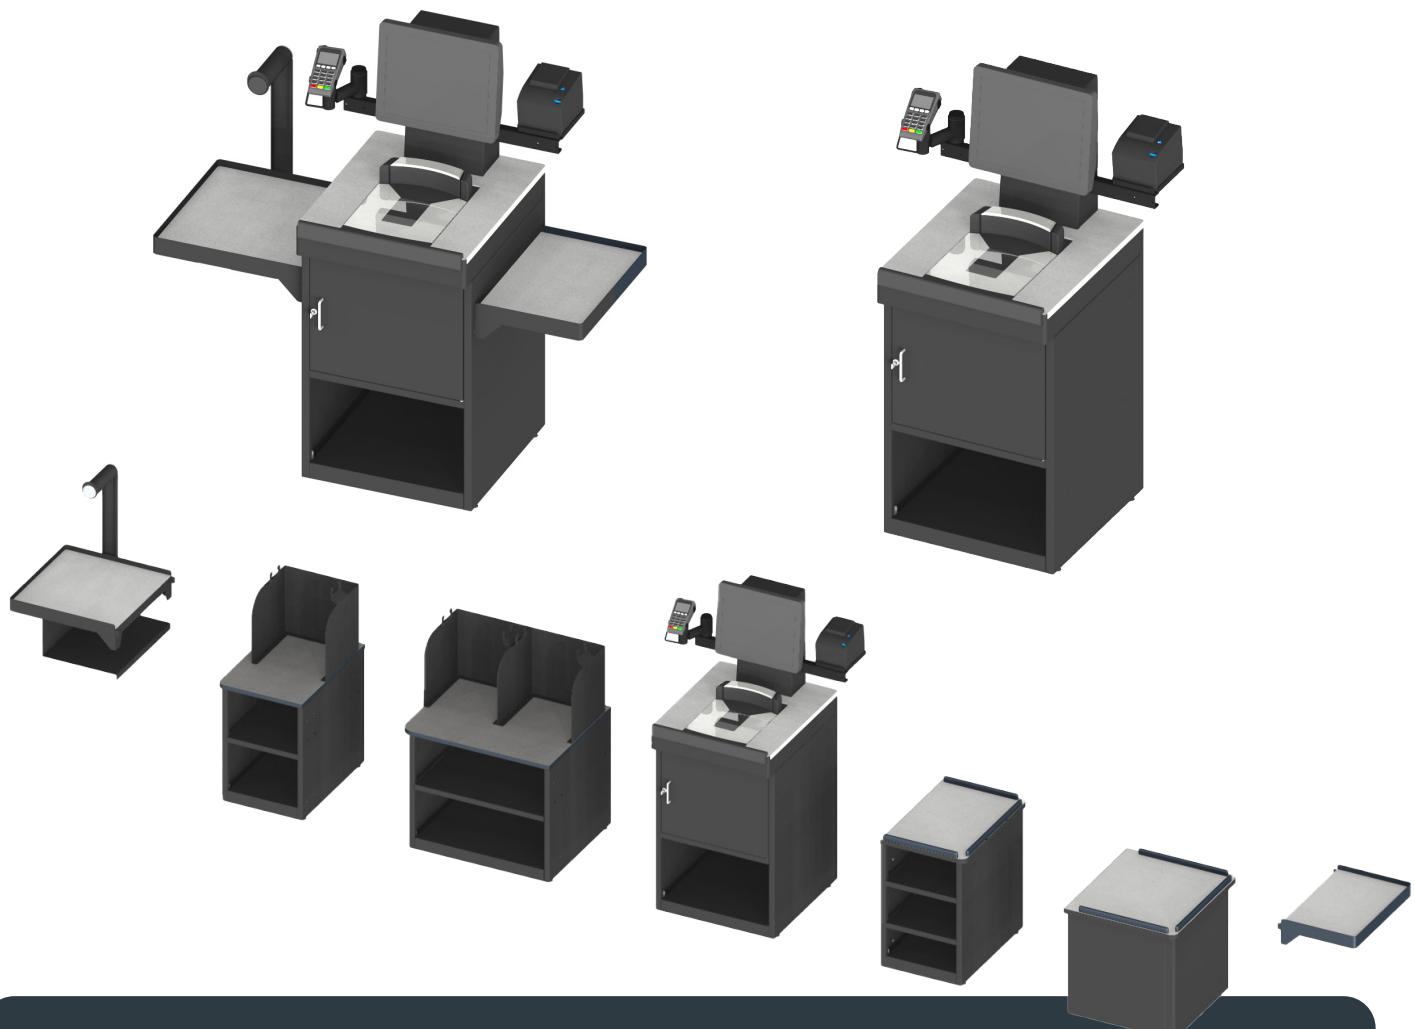

Catalogue 2026

SCO One

Modular self-checkout
for every store

SCO One is a flexible and ergonomic SCO solution that adapts to different store layouts and customer needs. With modular side elements, it offers easy installation, reliable performance and a smooth checkout experience for both shoppers and staff.

► Modular, ergonomic and tailored to your store's needs.

Who is it for?

► Target customers

Primarily designed for grocery stores, but also suitable for DIY and branch stores looking for a compact and flexible SCO solution.

► Retail environments:

Ideal for indoor retail settings where flexibility, efficiency and ergonomic operation are essential.

Key feature and benefits

- Modular design with side elements for different needs
- Ergonomic and user-friendly construction
- Quick and easy checkout experience
- Simple to install, operate and maintain
- Reliable performance with proven components
- Compact footprint – saves valuable floor space

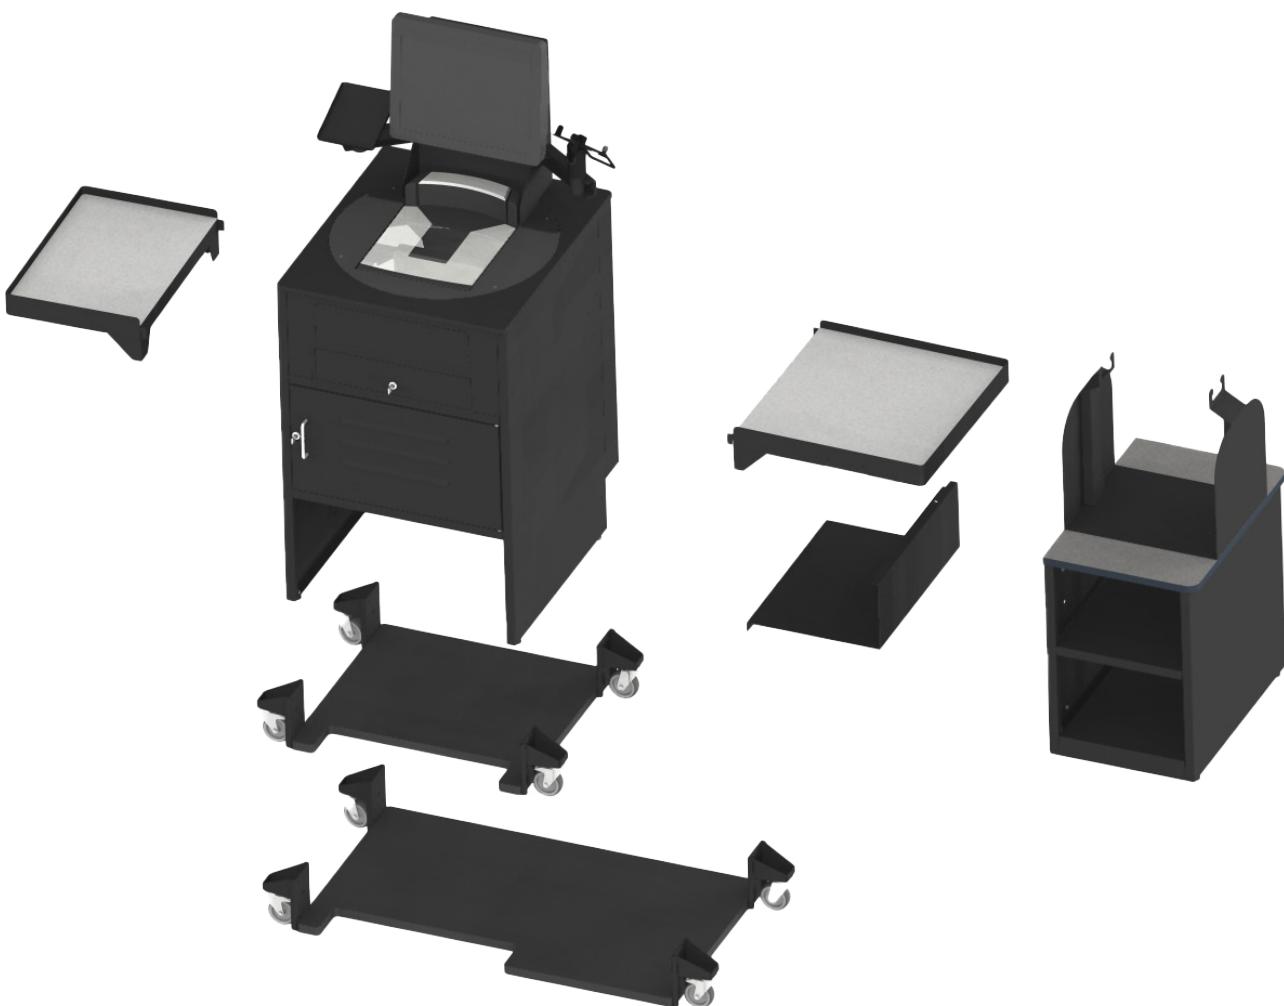

Technical specification

Dimensions	Length: 650 mm Width: 600 mm Height: 910/1 370 mm
Weight	60 kg

SCO One Hybrid

Modular SCO and service checkout

SCO One Hybrid is a flexible, ergonomic solution that combines self-checkout and service checkout in one compact system. With modular side elements, it adapts to your store's needs while ensuring quick, smooth and reliable transactions for both customers and staff.

► Versatile checkout – self-service and assisted in one modular solution.

Who is it for?

► Target customers

Primarily designed for grocery stores, but also suitable for DIY and branch stores looking for a versatile checkout solution.

► Retail environments:

Ideal for indoor retail settings where flexibility, efficiency and ergonomic operations are key.

Key feature and benefits

- Modular design with side elements for different needs
- Supports both self-checkout and service checkout
- Accepts card and cash payments
- Ergonomic and user-friendly construction
- Quick and easy checkout experience
- Simple to install, operate and maintain
- Compact footprint – saves valuable floor space

Technical specification

Dimensions	Length: 680 mm Width: 600 mm Height: 910/1 370 mm
Weight	60 kg
Certifications	FI
Operating conditions	Indoor, 5–35°C
Payment option	Card payment and cash payment
Scanner	Dimensions prepared for Datalogic Magellan 9800
Standards	EN ISO 12100
Options	Yes

SCO with screen

Self-checkout with integrated screen wall

SCO with Screen combines a compact, ergonomic self-checkout with a screen wall at the back, creating a functional and visually integrated solution. Modular design allows easy installation and adaptation to different store layouts while ensuring a smooth checkout experience.

► SCO with a view - modular, ergonomic and integrated.

Who is it for?

► Target customers

Primarily designed for grocery stores, but also suitable for retailers looking to combine self-checkout with a visual screen wall to guide customers and optimize store space.

► Retail environments:

Ideal for indoor retail settings where space optimization, ergonomic operation, and clear customer guidance are important.

Key feature and benefits

- Integrated screen wall behind the SCO
- Modular and ergonomic design
- Quick and easy checkout experience
- Simple to install, operate and maintain
- Compact and efficient layout for better space utilization
- Designed for card payments

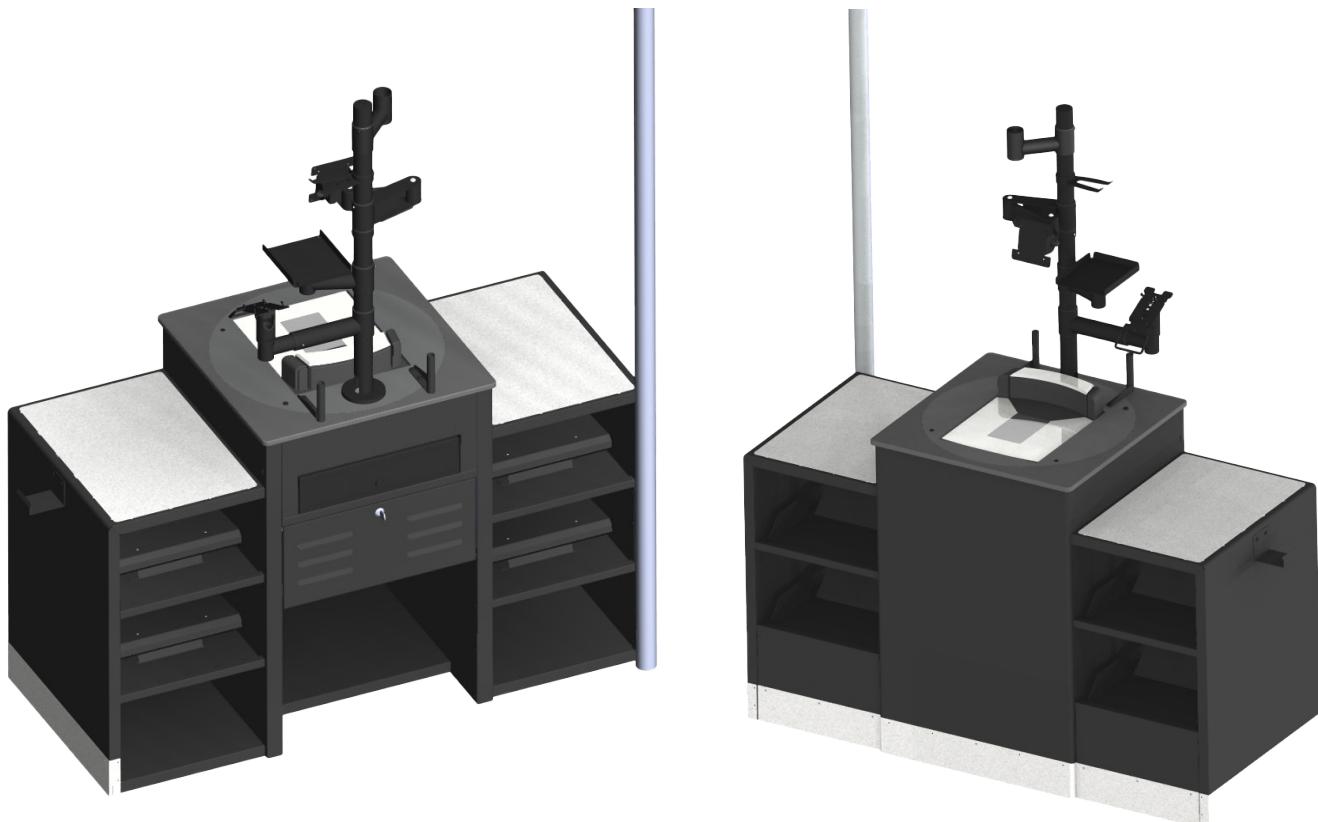

Technical specification

Dimensions	Length: 650 mm Width: 2 000 mm Height: 1 240 mm
Weight	120 kg
Certifications	FI
Operating conditions	Indoor, 5–35°C
Payment option	Card payment
Scanner	Dimensions prepared for Datalogic 3200VSi
Standards	EN ISO 12100

■ Minihybrid

Spacesaving SCO
and service checkout

Minihybrid is a compact and versatile checkout solution combining self-checkout and service checkout in one rotating middle unit. Its modular design allows stores to maximize space while providing a smooth and ergonomic checkout experience for customers and staff.

► Double the functionality, half the space – SCO and service in one module.

Who is it for?

► Target customers

Primarily designed for grocery stores, but also suitable for retailers looking to combine SCO and service checkout in a single space-efficient unit.

► Retail environments:

Ideal for indoor retail settings where flexibility, space efficiency and ergonomic operation are important.

Key feature and benefits

- Rotating middle unit for SCO or service checkout
- Combines two checkout types in one compact footprint
- Ergonomic and user-friendly design
- Quick and easy checkout experience
- Simple to install, operate and maintain
- Efficient layout that saves valuable floor space
- Designed for card payments

Technical specification

Dimensions	Length: 600 mm Width: 1 380 mm Height: 890 mm
Weight	95 kg
Certifications	FI
Operating conditions	Indoor, 5–35°C
Payment option	Card payment
Scanner	Dimensions prepared for Datalogic Magellan 9800
Standards	EN ISO 12100

Easy express

Modular self-checkout
with front packing shelf

Easy Express is a compact and ergonomic SCO solution designed to make checkout quick and intuitive. With a front packing shelf and modular design, it's easy to install, connect side by side, and maintain - ensuring a smooth experience for both customers and staff.

- ▶ Fast, flexible self-checkout - designed to fit in any store.

Who is it for?

► Target customers

Grocery retailers in need of a cost-effective, space-efficient self-checkout that combines user-friendliness with reliable performance.

► Retail environments:

Ideal for indoor retail spaces where fast, safe and ergonomic transactions are important.

Key feature and benefits

- Modular and ergonomic design
- Quick and easy checkout experience
- Front packing shelf for customer convenience
- Easy to use, install, and maintain
- Can be connected side by side for maximum efficiency
- Compact footprint, ideal for saving space

Technical specification

Dimensions	Length: 780 mm Width: 1 000 mm Height: 600/1 415 mm
Weight	57 kg
Certifications	FI
Operating conditions	Indoor, 5–35°C
Standards	EN ISO 12100
